MEDICAL CLINICAL ASSISTANT (BNA) — TUITION

COURSE DESCRIPTION

Basic Nurse Assistant is a prerequisite for some higher educational institutions for students seeking to become a Licensed Practical Nurse or Registered Nurse. Implementing BNA with Medical Assistant provides students an advantage to continue their education without returning to school for a BNA course. Students will also cover the IDPH Basic Nurse Assistant 21 skills.

The Medical Assistant program prepares students for entry-level positions as medical assistants in a variety of health care settings. The course covers the structure and function of major body systems, medical terminology, computer skills, electrocardiogram, phlebotomy, diagnostic and therapeutic procedures, administration processes, and medical processing of medical insurance forms and claims.

Students may take five exams: 1) BNA, 2) Phlebotomy, 3) EKG, 4) Medical Billing & Coding, and 5) Medical Assistant. Training is up to 690 clock hours and up to 67 weeks. Upon completion of all modules, students receive a Certificate of Completion.

TUITION AND REGISTRATION

Tuition / Registration	$8,050.00
Books / Handouts	$1,325.00
Lab Fees	$255.00
Tuition subtotal	$9,630.00

PAYMENT AND ENROLLMENT POLICIES

Price changes: Prices are subject to change without notice. Changes will not affect currently enrolled students unless they agree to the changes in writing.

Refunds and late payments: Students have the right, among others, to pay the full amount due and, under certain conditions, obtain a partial refund of financial charges if applicable. ELIM does not charge finance charges. A late fee of 10% will be added to all late payments.

Payment methods: Cash, money order, or cashier’s check. Personal checks, debit cards, and credit cards are not accepted.

Please refer to your contract for payments and amounts due on the first day of class or orientation. Books will be issued with the first payment. A criminal background check must be completed before class, and a physical examination must be started before clinical.

Supplies may be purchased from ELIM, or students may obtain uniforms and other supplies at Wal-Mart. Consult local listings or the internet for a nearby location.

PHLEBOTOMY TECHNICIAN — TUITION

COURSE DESCRIPTION

A phlebotomist is responsible for collecting blood for laboratory analysis, which is necessary for diagnosis and patient care. Common duties include preparing patients for blood collection, collecting routine skin puncture and venous specimens for testing, supporting patient confidentiality, transporting specimens to the laboratory, and maintaining a safe working environment.

Students will be introduced to medical terminology, HIPAA, and safety controls. Graduates may gain employment in hospitals, clinics, blood banks, doctors' offices, and laboratories. Phlebotomy Technician training is up to 100 clock hours and up to 14 weeks. Upon completion, students receive a Certificate of Completion.
