PATIENT CARE TECHNICIAN II — TUITION

BNA • PHLEBOTOMY • DIALYSIS

COURSE DESCRIPTION

The Basic Nurse Assistant Program (CNA) is often a prerequisite leading to advancement in several medical careers, particularly entry-level positions. Nursing Assistants are employed in hospitals, skilled nursing facilities, private homes, clinics, physician offices, and ambulatory care settings. Some duties include measuring vital signs, feeding, bathing, grooming, and helping with transfers and ambulation. The student will cover reporting, recording, and communicating patient information to the health team.

It is the responsibility of a phlebotomist to collect blood for laboratory analysis, which is necessary for diagnosis and care of a patient. Some common duties are to prepare patients for blood collection, collect routine skin puncture and venous specimens for testing, support patient confidentiality, transport specimens to the laboratory, and support a safe working environment. Students will be introduced to medical terminology, HIPAA, and safety control. Graduates may find employment in hospitals, clinics, blood banks, doctors' offices, and laboratories.

Dialysis Technicians set up and work on hemodialysis and peritoneal machines to provide dialysis treatment for patients with kidney failure. Some duties include monitoring vital signs during treatment, removing wastes, salt, and extra fluids from the patient's blood while maintaining safe levels of chemicals in the blood, helping nurses with treatments under a physician, and breaking down and cleaning dialysis machines after treatment.

The PCT II training program is up to 280 clock hours and up to 36 weeks. Upon completion, the student will receive a Certificate of Completion.

TUITION AND REGISTRATION

Tuition / Registration	$3,200.00
Books / Handouts	$425.00
Lab Fees	$125.00
Tuition subtotal	**$3,750.00**

OTHER EXPENSES

Uniform (2)	$70.00
Shoes	$35.00

Criminal Background	$40.00
Stethoscope	$20.00
National Exam (2)	$205.00
Watch	$20.00
Gait Belt	$20.00
Other expenses	**$475.00**
Grand total	**$4,225.00**

PAYMENT AND ENROLLMENT POLICIES

Pricing: Price subject to change without notice. Changes will not affect currently enrolled students unless they agree in writing.

Refunds and fees: Under the law, you have the right, among others, to pay the full amount due and to obtain under certain conditions a partial refund of financial charges if applicable. ELIM does not charge finance charges. However, a late fee (10%) will be added to all late payments.

Payment methods: Cash, money order, or cashier's check. Personal checks, debit cards, and credit cards are not accepted.

Please see your contract regarding payments and the amount due on the first day of class or orientation. Books will be issued with the first payment. A criminal background check must be done before class, and a physical exam must be started before clinical.

Supplies may be bought from ELIM, or uniforms and other supplies may be found at Wal-Mart. Please consult the yellow pages or internet for a location near you.

The Bonnet (NANTS) exam for the Dialysis Technician is started after the student has worked in the field for 6 to 18 months. The school will not include the test fee ($250.00) for the exam. Once hired and after passing the exam, most dialysis facilities will reimburse the employee for the cost of the exam.
