PHLEBOTOMY TECHNICIAN — TUITION

COURSE DESCRIPTION

It is the responsibility of a phlebotomist to collect blood for laboratory analysis, which is necessary for diagnosing and the care of a patient. Some common duties are to prepare patients for blood collection, collect routine skin puncture and venous specimens for testing, support patient confidentiality, transport specimens to the laboratory, and support a safe working environment. Students will be introduced to medical terminology, HIPAA, and safety control. The graduate will gain employment in hospitals, clinics, blood banks, doctor's office, and laboratories.

The Phlebotomy Technician training is for up to 100 clock hours and up to 14 weeks.

Upon the completion of the program, the student will receive a Certificate of Completion.

PAYMENT AND ENROLLMENT POLICIES

Price subject to change without notice: Any such changes will not affect currently enrolled students unless they agree to such changes in writing.

Under the law you have the right, among others, to pay the full amount due and to obtain under certain conditions a partial refund of financial charges if applicable. ELIM does not charge finance charges. However, a late fee (10%) will be added to all late payments.

Methods of payment: Cash, money order, or cashier's check. Sorry, we do not accept personal checks, debit, or credit cards.

Please see your contract regarding payments and amount due on the first day of class or orientation. Books will be issued with the first payment. Also, a criminal background check must be done before class, and a physical exam must be started before clinical.

Supplies may be bought from ELIM, or you may find uniforms and other supplies at Wal-Mart. Please consult the yellow pages or the internet for a location near you.
